PRODUCT INFORMATION

1191 Wheeling Road, Wheeling, IL 60090
 Phone: 847-541-9000 Fax: 847-541-7549

PRODUCT: 96664

DESCRIPTION:

Valspar® Signature Colors® Faux Weathered Crackle Glaze

FEATURES:

Create your own antiques with this specialty glaze. Apply between a base coat of Valspar paint and a top coat of flat paint to create dramatic weathered lines. The top coat will crack, letting the base coat show through. Contrast your base and top coat colors for more of an exaggerated look.

WHERE TO USE:

Use on clean furniture, walls, cabinets and trim.

COVERAGE:

100-150 sq. ft. (9.3-13.9 m²)

TOOLS:

Use professional brushes and tools for an expert looking finish.

SURFACE PREPARATION:

Make sure surfaces are clean, dry and free of peeling paint. Use a primer on new wallboard.

DRYING TIME:

Room temperatures should be between 55-75°F. Allow to dry thoroughly (approximately 1 hour) before applying a top coat of latex paint.

APPLICATION:

1. Apply a base coat of Valspar paint according to label instructions. Allow to dry 4 hours or overnight before applying Weathered Crackle.
2. Using a premium quality short nap roller or nylon brush, apply an even coat of Weathered Crackle to the surface. Uneven application will cause unwanted variation in the cracking pattern. A heavier application will yield a larger crackle pattern.
Let Crackle Glaze dry 1-4 hours before applying top coat. Waiting longer than 4 hours may require re-application.
3. Using a premium quality roller or brush, apply a flat latex paint in the color of your choice. Do not overwork this coat. One application in a single direction works best.

CLEANING UP:

Clean hands, brushes and tools with warm, soapy water.

TAKING CARE OF THE SURFACE:

After 30 days, you may wash the surface with a mild, non-abrasive cleaner and a soft sponge.

PACKAGING:

Quarts 4 Pack
 Pints 4 Pack

CAUTIONS:

All Valspar® Signature Colors® Faux Finish products should be used in accordance with safe handling practices, including - Avoid contact with eyes and skin. Wash hands after use. Adult supervision is recommended when used by younger children.
