ONE-COAT EXTERIOR STAIN & SEALER

ALL-WEATHER DEFENSE

UNA CAPA EXTERIOR TINTE Y SELLADOR. DEFENSA CONTRA TODO TIPO DE CLIMA.

STAIN IT & LOVE IT... FASTER.

Valspar® Exterior Stain & Sealer gives you the beautiful finish you want, plus complete all-weather defense against harsh sun, rain, snow and ice in one, easy-to-apply coat.

Tíñala y adórela...más rápido.

El tinte y sellador para exteriores de Valspar® le ofrece el acabado hermoso que desea además de completar la defensa contra todo tipo de clima: sol intenso, lluvia, nieve y hielo, tan solo con una capa fácil de aplicar.

Don't forget to prep.

Valspar Fast Acting Deck Cleaner treats and prepares decks, fences, outdoor furniture and other exterior surfaces for superior stain penetration, even results and longer-lasting protection. Always use a cleaner before staining or waterproofing.

FAST ACTING DECK CLEANER

Removes dirt, mold & mildew in ten minutes with virtually no scrubbing.

VALSPAR STAIN SAMPLES

Half-pint samples let you test the color you're considering before you buy multiple gallons. Apply in a hidden spot and let dry.

HELPFUL TIPS

Avoid staining on humid or extremely hot days.

Apply stain by brushing in the direction of the grain.

High-quality Valspar Stain Brushes were specially made for the task.

Blend stained and unstained sections while still wet.

Allow stain to dry completely (24 hours) before walking on deck.

valspar®

No olvide la preparación.

Valspar Fast Acting Deck Cleaner trata y prepara las terrazas, las cercas, los muebles exteriores y otras superficies en exteriores para lograr una penetración superior del tinte, resultados uniformes, una protección duradera. Siempre utilice un limpiador antes de teñir o impermeabilizar. El limpiador para madera elimina la suciedad, los hongos y el moho en diez minutos prácticamente sin restregar. Las muestras de tintes de media pinta Valspar le permiten probar el color que está considerando usar antes de comprar varios galones. Aplique el producto de muestra en un lugar oculto y deje secar.

Consejos prácticos

Evite teñir cuando haya días de humedad o días de calor extremo. Aplique el tinte con una brocha en dirección de las vetas. Las brochas para tinte Valspar son de alta calidad y se fabricaron especialmente para la tarea. Combine secciones teñidas y no teñidas mientras estén húmedas. Deje el tinte se seque por completo. Deje secar (por 24 horas) antes de caminar sobre la superficie.

The beauty and protection you want

Enjoy the level of coverage and all-weather defense that's right for you.

La belleza y protección que desea. Disfrute el nivel de cobertura y la defensa contra todo clima que sea adecuado para usted.

CLEAR

LOVE YOUR OUTDOORS. AME SUS EXTERIORES.

Decks, fences, porches, patios, even outdoor furniture — Valspar® Exterior One-Coat Stain & Sealer beautifies and protects them all, and in less time, with perfect coverage in a single coat.

Que le encanten sus exteriores. Las terrazas, cercas, porches, patios, incluso muebles exteriores. Valspar® Exterior One-Coat Stain & Sealer los embellece y los protege todos y, en menos tiempo, con una cobertura perfecta de una sola capa.

Colors shown are as accurate as digital printing can make them. But ink fades over time — and the wood you're staining affects the project's final color — so always test stain color in an inconspicuous spot before staining.

Los colores que se muestran tienen el grado de precisión que la impresión digital permite. Pero la tinta se desgasta con el tiempo: y la madera que usted está tiñendo afecta el color final del proyecto. Por lo tanto, siempre pruebe el color del tinte en un área no visible antes de proceder con la tintura.
